

The Yellowknife Association for Community Living

advocates with and on behalf of persons with disabilities. The mission of the Association is to help those with intellectual disabilities and their families live meaningful lives in supportive communities.

Skills Training & Community Inclusion (ST&CI) Service offers Business Services to local companies, organizations and the general public.

Those receiving services can access a variety of employment options through Business Services. Respecting every individual's abilities and their right to employment, all revenue generated by Business Services is paid out in wages to the individuals providing services listed in this pamphlet.

Your support for ST&CI clients is appreciated. Community support is an integral part of the Association's success in providing employment through Business Services at the Abe Miller Building.
